# NEWSLETTER

2020-21

E safety is an integral part of our learning. Our policies and practices are there to support our children and provide support and advice to them. Our school is committed to educating children to create digital citizens who contribute to the online world in a positive and considerate way. Indian School Fujairah had conducted many quiz and survey related to E safety. Students also took initiative for doing awareness program which can create a great impact to make the event successful. We have created blog pages where students can get enough knowledge and share their comments. The team had received a very good feedback for the event conducted based on E safety.

INDIAN SCHOOL – FUJAIRAH

## E – SAFETY PROGRAMMES

HOW EXTERNAL THREATS OCCUR?

- An external threat refers to the risk of somebody from the outside of a company who attempts to exploit system vulnerabilities through the use of malicious software, hacking, sabotage or social engineering.
- These can be much harder to deal with than internal threats, as you cannot monitor people from the outside like you can employees, nor can you predict what they might do next.
- To better understand external threats, we will learn about what kind of external threats there are and how they function to cause the kind of damage they do.
- we'll learn about:
  - Malicious software (malware)
  - Hacking by individuals, companies and governments
  - Sabotage by individuals, terrorist organisations, companies and governments
  - Social engineering techniques used to deceive people into giving out information

WHAT IS SOCIAL MEDIA ?

Social media is a platform which is design to allow people to share content quickly & efficient manner. Social media becoming quite popular these days because of its user-friendly features. One of the most dominant users of social media is our youth. The advantage of using social media is it gives people a chance to connect with each other across the distances. In other words, the

Guidelines to prevent social media misuses:-

**PRECAUTIONS**

- Talk with your PARENTS before you post a social media
- Think & act before u do something
- Carefully read all the terms & conditions given by apps

**ADDITIONAL TIPS**

- Help them to understand about the dangers
- Always keep an eye on them
- Help them to set their privacy & security

THANK YOU

Congratulations! You've just taken a big step to increasing mobile privacy and protecting the data on your device.
